

# Fact Sheet

## Masidyne Iodophor Teat Sanitiser

### DESCRIPTION

**Dairy Power Masidyne** is a medicated formula containing glycerine (46g/L) and lanolin (16g/L) which can be used as a teat dip or spray. Masidyne aids in the control of mastitis.

**Masidyne** is a dark brown, slightly viscous, foaming liquid with an iodine odour.

### FEATURES & BENEFITS

- **Assists in the control of Mastitis**  
*Masidyne contains an iodophor which provides a source of iodine to help control mastitis (20g/L available iodine).*
- **Masidyne contains lanolin and glycerine to help keep teats in good condition.**
- **Colour coded product label**  
*Enables easier identification to ensure the correct product is used. Simplifies employee training.*

### DIRECTIONS FOR USE

To avoid contamination, remove all **Masidyne** from teats before milking. For best results, a fresh solution should be made up daily using clean or boiled water.

1. Ensure teats are **CLEAN** and **DRY** before milking to reduce organic and bacterial contaminations and iodine residue in milk.
2. When using **Masidyne** as a teat dip, dilute 1 part **Masidyne** to 3 parts clean, cool, potable water. Immerse teats in the solution after milking.
3. When using **Masidyne** as a teat spray, dilute 1 part **Masidyne** to 3 parts clean, cool, potable water. Spray teats after cow has been milked ensuring droplets form on teat ends. Ensure the whole surface of the teat is covered.
4. Emollient (food grade glycerine) may be included to a maximum of 10%. Dilute 3 parts **Masidyne** in 8 parts clean, cool, potable water and 1 part emollient.

### COMMENTS

1. The water temperature should not exceed 40°C.
2. Do not overuse. The use of stronger solutions is wasteful, unnecessary and may result in contamination of the milk.

### STORAGE CONDITIONS

Product contains Iodine.

Exposure to elevated temperatures or direct sunlight can reduce the product shelf-life and activity.

### PACKAGING

20 litre drum	P/C 7154020
60 litre drum	P/C 7154060
110 litre drum	P/C 7154110
200 litre drum	P/C 7154200

APVMA Approval: 49122

### SAFETY INFORMATION

Carefully read the Material Safety Data Sheet (MSDS) before using this product. For your convenience, MSDS's may be accessed via our web site at [www.cleantec.com.au](http://www.cleantec.com.au).
