

Maspray Disinfectant Teat Dip and Spray

DESCRIPTION

Dairy Power Maspray is a chlorhexidine-based teat disinfectant used to aid in the control of Mastitis-causing organisms. It contains glycerol to help keep teats in good condition (445g/L active glycerol, 80g/L active glucose).

Maspray may be used either as a dip or a spray.

Maspray is a clear, colourless mobile liquid with a sweet surfactant odour.

FEATURES & BENEFITS

- **Economical formula**
***Maspray** contains chlorhexidine gluconate (55g/L) as a disinfectant which aids in controlling mastitis - causing organisms. **Maspray** contains emollients which help keep the teats in good condition.*
- **Colour coded product label**
Enables easier identification to ensure the correct product is used. Simplifies employee training.

DIRECTIONS FOR USE

1. After each cow has been milked, spray/dip teats with **Maspray** solution (1 part **Maspray** to 9 parts clean water) ensuring that droplets form on teat ends.
2. For best results fresh solutions should be made up daily using clean or pre-cooled boiled water. Extra glycerine can be added as required (up to 10%).
3. To avoid contamination, remove all **Maspray** from teat before milking.

COMMENTS

Not suitable for use with hard or poor quality water.

PACKAGING

20 litre drum P/C 15034
110 litre drum P/C 6836110
APVMA Approval: 49123
