

Sofmat® System

The ultimate in cow comfort

GEA Farm Equipment | Norbco

engineering for a better world

GEA Farm Technologies

The Sofmat® system, developed specifically for cattle beds, consists of a super soft Duracushion underlayment, providing a new level of cow comfort. The Sofmat system offers dairy producers an alternative to the maintenance and health challenges of sand bedding or manure solids.

Individual 1¼" EVA pad.

Duracushion underlayment

Extremely soft — 1¼" EVA pad.

Durable — 100% waterproof.

Easy to install — simply lay the individual pads between poly boards.

Rubber insulation strip — 6" x ¾" strip keeps Duracushion away from the edge of the curb.

Benefits of the Sofmat system:

- Soft material for cow comfort.
- Unbeatable traction.
- Surface provides longevity.
- Ease of installation.

Durable Sofmat top cover.

Sofmat top cover

Rolled rubber — continuous 5mm x 100 ft. rolls.

Durable — heavy, nylon scrim molded into rubber.

Industrial top surface — supreme traction, non-abrasive.

Complete mounting system

Durable mounting boards — poly boards anchored to the concrete.

Rubber cover anchored to poly boards — using screws and washers in the front of the stalls and on the ends.
